

Werner Floors®

Hamburg

Welcome to Werner Floors®

The Durafloor Werner GmbH was founded by Christian and Matthias Werner. With their own production site in southern China, and their headquarters in Hamburg, Germany the two brothers live up to producing the Werner Floors® quality parquet together with about 250 employees. Thanks to their high aspiration of producing significant wooden flooring they quickly set foot on the national and international market with a great number of successful projects in Europe, the Middle East, Vietnam, the United States, Mexico and India. What began solely with bamboo has become a wide product range of highly durable, exclusive and decorative bamboo, oak and trend wood parquet. Werner Floors® quality parquet's consistent quality, the company's excellent reliability and their sense for economically sustainable raw materials is valued by all customers including HUGO BOSS, MERCEDES, ROLLS ROYCE, TELEKOM, ADIDAS, KEMPINSKI, HILTON and RITZ CARLTON GROUP. All parquets create a modern, unique and exclusive atmosphere with a sophisticated touch, in commercial as well as private properties.

Please feel invited on a pictorial journey through the extraordinary Werner Floors® projects. We are looking forward to realising your special project in the near future.

With best regards

Two handwritten signatures in black ink. The first signature, 'M. Werner', is written in a cursive style. The second signature, 'Christian Werner', is also in cursive and appears to be written over or next to the first.

Your professional partner in projects anywhere in the world...

- exclusive range of wood species
